

CASE STUDY

PROJECT: Bovis Homes, Lancashire

Stancliffe Stone
BRITISH STONE, CRAFTED BY DESIGN

STONE DESCRIPTION:

Beautiful Derbyshire carboniferous sandstone, Stanton Moor buff - pink has been used widely across the UK for all scale of projects – from major prestigious city centre schemes to commercial, residential developments and private homes.

This fine to medium grained sandstone is extracted from Dale View Quarry, Stanton-by-Dale, Derbyshire. The striking colour of Stanton Moor sandstone features a buff base with brown, gold and wild pink variation, adding depth and interest to both traditional and contemporary building designs. Extensive reserves allow selection from either Buff or Pink colour options.

PROJECT SUMMARY:

Rawtenstall the largest town in the Borough, steeped in history and fine buildings required a housing development which would blend seamlessly into this well established community.

THE BUILD SOLUTION:

Stanton Moor pitch face walling gave the architects at Bovis Homes an opportunity to showcase this residential development built of British natural sandstone as a flexible concept between contemporary and traditional living.

The demand for this durable sandstone for large scale prestigious housing schemes has grown considerably; mostly due to the consistency of buff and more variable fresh pinks and gold's which keeps large expanses of a buildings fresh and colourful.

Stone Supplier:	Stancliffe Stone - Quarried British Dimensional Masonry and Walling products
Stone Type:	Stanton Moor Buff - Pink Sandstone
Petrographic Description:	Carboniferous Sandstone
Quarry:	Dale View Derbyshire
Project Type:	New build - Residential
Product:	Pitch face walling
Architect:	Bovis Homes
Contractor:	Bovis Homes
Location:	Love Clough, Rawtenstall & Lancashire
Completion:	2007
